DETAILED ACTION

Claims 1-31 are pending in this application.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-29, drawn to process for producing N-vinyl formamide, classified in class 564, subclass 215.
 - II. Claims 30-31, drawn to a reagent comprising at least one cyclic anhydride group tethered to a solid support, classified in class 549, subclass 233.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as crosslinking agent. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and being divergent subject matter, restriction for examination purposes as indicated is proper.

4. During a telephone conversation with Henry Bartony on 10/26/04 a provisional election was made without traverse to prosecute the invention of Group, claims 1-29.

Affirmation of this election must be made by applicant in replying to this Office action.

Claims 30-31 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1621

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Drawings

6. The drawings were received on 8/29/03. These drawings are acceptable.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 1-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims are recited in terms of "including steps of..." and "including at least one cyclic anhydride..." and "including at least one diacid group." In doing so, claims are rendered indefinite, because it is not clear as to what are the things included and what are the things that are not included.

DE 3,500,773 and JP 63-190862 are cited to show the state of the art.

Especially, DE'773, see page 5, 6, Table 1, and JP'862, page 675, column 2.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SHAILENDRA - KUMAR whose telephone number is (571)272-0640. The examiner can normally be reached on Mon-Thur 8:00-5:30, Alt Fri.
